# JOHN OLUWABAMIDELE AJILA

FRONTEND WEB DEVELOPER

Email: oluwabamijohn@gmail.com | Phone: 08059104487

## PROFILE

Computer Science student developing practical frontend web development skills. Focused on building clean, responsive web interfaces with HTML, CSS, and JavaScript, with additional interest in icons, CSS animations, and user-friendly layouts. Currently building student projects to grow practical experience.

## TECHNICAL SKILLS

- HTML and CSS
- Responsive web design
- JavaScript
- Font Awesome icons
- CSS animations and transitions

## PROJECTS

### Personal Portfolio Website

Personal project presenting frontend practice, including a dark minimalist design, navigation, page sections, hover effects, and CSS animations.

### CyberSafe Academy — Password Safety Page

Student project focused on presenting password-safety information in a dedicated web page. Add a live project link and specific features once they are ready to share.

## EDUCATION

### Computer Science

Institution: [Add institution] | Current level / expected graduation: [Add details]

## PRACTICAL EXPERIENCE

### Beginner Projects

Developing practical experience through personal and student projects using HTML, CSS, responsive layouts, Font Awesome, CSS animations, and JavaScript. No formal employment history has been provided.
